Key opportunities

The humanisation of pets is growing the demand for natural, plant-based, and sustainable pet food products with clean-label, allergen-free claims.

Pet owners increasingly perceive these products as healthier and better for the environment.

Manufacturers are challenged to find ingredients that meet consumer expectations without compromising their ability to formulate nutritious products with high palatability and digestibility.

The Pure: FABAs range of concentrates and flours offers pet food manufacturers a functional and versatile alternative for staying on trend with new pet food formulations.

Functional benefits

Naturally gluten-free substitute for cereal ingredients

Intensive source of pulse-based protein

Sustainable alternative to animal proteins

Naturally high in protein

Excellent amino acid profile

Inclusion of natural fats

High solubility

Good energy source

Versatile thickening and binding properties

Solid texture and improved stability

Non-GMO

Versatile options

A range of options for every formulation:

Protein Concentrate

Starch Concentrate

Protein Flour

Faba Bean Hulls

Stay ahead of the curve and stand out in your category by embracing the pristine qualities of all-natural Pure: FABA concentrates and flours for improved animal nutrition.

We're **ISO 9001:2015** and soon to be **ISO 22000:2018** certified.

Based on dry matter test results. Actual nutritional values may vary with seasonality and variety of faba bean stock. The information described above is solely for your consideration, investigation, and independent verification.
